

KEY FEATURES

ENERGY DISPERSION
& COMFORT

MANERA LEASH RELEASE

- Trigger the leashes easily with left or right hand
- Leash can be slideable or clamped between the two rings

SPREADER BAR

- Length of our bars are well suited so they will pull along both sides of the harness
- Avoids any lateral contraction on the body

DOWN HOLD SYSTEM

- The spreader bar has an asymmetrical attachment that distributes the forces downward
- Secured in its original position, the hook does not ride back up

TUCKFLAP

- Flaps are inserted into the harness, they are compressed and locked when straps are tighten
- Stiffen the connection between spreader bar & harness & prevent it from riding up
