OUR STORY · 24

SALTY IS A FEELING

It's getting wild on the ocean, the sea spray all over our faces.
It's part of who you become when you're out there, lost with friends.
It's the salt encrusted in us after a long day playing with the waves.

After shower the salt is gone, but the feeling stays there.

TECHNOS

KEY FEATURES

WETSUITS

SD² TAPE

- Triple glued / Blind stitched / Inside tape welded by an air heater machine
- Durable & Flex
- 100% waterproof

Available on ALL MODEL

SEALING PRINT

- Keep the water away
- Keep legs & arms panels in place

Available on ALL MODEL,
except on HYBRID & SHORTY

3D DESIGN

Our suits are directly designed on a model adopting a Kiteboarding specific position, for a much more natural feeling while riding.

Available on ALL MODEL

MAGMA FLEECE

- Plush loops work as insulators & heat generators
- Smooth, soft & comfy feeling against the skin
- Dries fast

Available on MAGMA

X10D JERSEY

- Light & stretch
- Good feeling on the skin

Available on X10D

WATER STRAINER

- Drains the water out of the leg
- Continue the session in the best possible conditions

Available on ALL MODEL,
except on HYBRID & SHORTY

BACK KNEE EMBOSS

- Helps the neoprene to bend more naturally
- Greater comfort during flexion

Available on MAGMA

BACKZIP

- We use a PK 8mm zip built in high quality nylon, it is a short zip (30cm) in order to maximize the back flexibility.
- An inside flap covers the back and goes around the neck, it protects the back from the outside zipper and allows a perfect waterproofness. It also adds a few millimeters of thickness to an area that is very exposed to wind.

Available on BACKZIP

REFLEX SKIN

- Best stretch of the market
- Durable: Tear resistant, UV resistant

Available on ALL MODEL

AIRFOAM

- Made to be light, improving comfort & endurance
- Best flex & insulation on the market
- Quilted touch

Available on ALL MODEL

KEY FEATURES

HARNESSES

DOWN HOLD SYSTEM

- The spreader bar has an asymmetrical attachment that distributes the forces downward
- Secured in its original position, the hook does not ride back up

Available on ALL MODEL

SPREADER BAR

- Length of our bars are well suited so they will pull along both sides of the harness
- Avoids any lateral contraction on the body

Available on ALL MODEL

ENERGY DISPERSION PLATE

- Receives 100% of the kite power and spreads it smoothly around the back
- Avoids any unwanted muscular efforts to offset the bad traction
- Raised durability because the loads are not spread through soft parts

Available on the UNION

FEATHER WEIGHT

- Weighting in at just 1.1kg (Size M. No spreader bar)
- One of the lightest harness on the market
- Doesn't absorb water: Stays light while riding

Available on the UNION

SINGLE FOAM

- Thermoformed one-piece foam backing
- Much lighter than multiple foam layups used in some harnesses
- More durable as there are less parts to be glued or stitched together

Available on the UNION & the EXO

TUCK FLAP

- Flaps are inserted into the harness, they are compressed and locked when straps are tighten
- Stiffen the connection between spreader bar & harness & prevent it from riding up

Available on ALL MODEL

ENERGY DISPERSION FRAME

- Developed in close collaboration with a kinetic science lab to optimize load distribution.
- Avoids any unwanted muscular efforts to offset the bad traction
- Raised durability because the loads are not spread through soft parts

Available on the EXO

MANERA LEASH RELEASE

- Trigger the leashes easily with left or right hand
- Leash can be slideable or clamped between the two rings

Available on the EXO

ADAPTIVE SHELL

- The Adaptive Shell stiffness shades from hard in the center area to softer on the edges
- The stiff center-belt prevents the harness from folding and compressing your body while preserving a good lumbar support
- The softer outline preserves intuitive mobility and adaptability
- It results in a shell that is forgiving where you need flex and stiff where you want support

Available on the ECLIPSE

GEL FOAM

- The gel foam disperses pressure evenly & efficiently to provide a "pillow comfort", much appreciated during long sessions
- It creates a different sense of feeling while riding as it moves along with your movements, therefore the contact with the harness is more intuitive & it prevents any rash or rubbing discomfort

Available on the ECLIPSE

KEY FEATURES

BOARD BAGS

POLYESTER 600D PREMIUM

- Our bags are built in premium Polyester 600D, this is a choc, tearing, UV and water resistant material.
- It guarantees the best durability to our products.

Available on ALL MODEL

ALUMINIUM BUCKLES

- All the buckles are made in aluminum, to guarantee the best possible durability.

Available on the 747, CHUBBY & BIGGIE

YKK ZIPPERS

- We use heavy-duty 8mm YKK zippers built in a high-quality plastic.
- It avoids any crack, corrosion, and allow a fluid run every time you open/close the bag.

Available on ALL MODEL

« BACKPACK » STRAPS

- For LIGHT versions, the CHUBBY & 747 are easy to carry thanks to their backpack straps.

Available on the 747 LIGHT & CHUBBY LIGHT

INSIDE POCKETS

- The inside of the bag features multiple net pockets, the side pocket can store wax, fins and small accessories...
- While the top pocket can store a lycra, poncho or a small towel to protect the nose of your board.

Available on the 747, CHUBBY & BIGGIE

HIGH DENSITY FOAM

- All foil boardbags are built with a choc resistant high-density foam, which protects the foil effectively.

Available on the FOIL COVERS, MAST COVERS, KITE/SURF FOILBOX

PACK

- Extremely light & easy to pack/fold.

Available on the 747 LIGHT, CHUBBY LIGHT & BIGGIE

WHEELS

- We use high quality wheels that are durable, comfortable & not too noisy.
- WHEELS versions are padded with a thick 8mm foam that guarantees the best protection.

Available on the 747 WHEELS & CHUBBY WHEELS

OUTSIDE POCKET

- All the travel bags feature an easy-to-access outside pocket, it is made in a water-resistant material so it can store wet stuff.

Available on the 747 & CHUBBY

TRANSVERSAL STRAPS

- The transversal reinforcement straps are strategically placed to relieve the zipper and material from too much stress, so the bag can handle heavy loads even when mishandled.

Available on the 747, CHUBBY & BIGGIE

KEY FEATURES

BOARDSHORTS

2 WAYS STRETCH

- The 2ways-stretch rip-stop construction offers a light yet strong boardshort that you don't feel, even when plunged into water.

Available on the GAMBAS

4 WAYS STRETCH

- The 4-ways stretch brings style without scarifying flex.

Available on the HAAPITI

FLEXIBLE

- Its 4-ways-stretch is worth just as much as any modern technical material out there. The Squareflex will meet your every move.

Available on the SQUAREFLEX

ECO-FRIENDLIER

- Recycling waste prevents the use for new raw material.
- Cocotex is blended with recycled polyester to create a performing and eco-friendlier boardshort.

Available on the SQUAREFLEX

DRIES FAST

- Activated carbon doesn't hold water; thus, the Squareflex dries fast and stays light and comfortable.
- The wet fabric doesn't stick to your legs, which avoids rashes in unpleasant locations.

Available on the SQUAREFLEX

WATER REPELLENT

- Your short stays light while riding and dries fast while on land for ultimate comfort.

Available on the GAMBAS & le HAAPITI

STRONG & DURABLE

- The rip-stop construction of the Squareflex and the thick polyester yarn of the Haapiti will follow you everywhere all year-round.

Available on the GAMBAS & le HAAPITI

STRONG & DURABLE

- Our boardshorts are not made to spend the day by the swimming pool, and this one is no exception.
- The Cocotex blended with recycled Polyester create a very strong material that will follow you for many trips under the sun.

Available on the SQUAREFLEX

PREVENTS BAD SMELLS

- One of activated carbon main properties is to prevent bad smells. Yes, even when stuffed for days in the back of your car.
- It puts an end to smelly boardshorts that you forgot for a "little" while without drying it first.

Available on the SQUAREFLEX

RESPONSIBLE DESIGN

- We use a PFOA/PFOS-free durable water repellent, as these chemicals are very persistent and harmful to the environment once released in the ocean.

Available on the SQUAREFLEX, the HAAPITI & the GAMBAS

NEW STYLE

Because we believe every moment
out there should be a great one

We are a French family-business which develops Kiteboarding gear for demanding riders. We believe that the product is the heart of a company, and as a result most of our efforts are spent on the research, development and testing of the collection.

Our passion is about Kiteboarding as much as it is about creating and innovating, we enjoy both the hours spent at the office and the ones spent on the water.

“ We have been into Kiteboarding since the beginning. “

All over these years, we have seen how Kiteboarding evolved and how many people were hit by this passion. Today it's pure happiness to see all those guys & girls on the water with a big smile on their faces.

MANERA is meant to enable those people to make the most of their time in the ocean. We create products so nobody has to get out of the water because they are cold or uncomfortable.
